

WONG JIA KAI

Singapore, Central | +65 9272 1939 | Wongjiakai@gmail.com | [LinkedIn](#)

SUMMARY

Cybersecurity undergraduate with experience in intrusion detection systems, software testing, and technical analysis. Skilled in Python, SQL, Wireshark, and Nmap, seeking opportunities in SOC operations and cybersecurity analysis.

EDUCATION

University of Wollongong, SIM
Major in Cybersecurity

Graduated: June 2026

PROJECTS & CYBERSECURITY HOME LABS

IntruSight – Web-Based Intrusion Detection System Dashboard (Final Year Project)

- Collaborated with a team to develop a full-stack IDS dashboard using React, FastAPI, and MongoDB, integrating Suricata, Snort, Zeek, and Kismet.
- Developed security monitoring and alert management features, centralizing alerts from multiple IDS sources.

WORK EXPERIENCE

United Overseas Bank (UOB)

June 2022 – June 2023

Software Analyst

- Investigated, documented, and prioritized software defects using JIRA, ensuring timely resolution of issues affecting application stability and user experience.
- Collaborated with cross-functional teams to analyze root causes, verify remediation efforts, and reduce recurring issues.
- Conducted application testing and validation activities to identify defects before production release, supporting risk reduction and service reliability.
- Maintained detailed defect documentation and reporting, enabling effective tracking, trend analysis, and stakeholder communication.

Singapore Armed Force, Infantry Training Institute (ITI)

February 2021 – May 2022

Assistant Platoon Trainer

- Trained and supervised personnel while enforcing operational procedures and safety standards.

Pactera

September 2019 – January 2020

Software / Hardware Tester

- Conducted software and hardware testing to identify, document, and track defects through resolution.
- Performed issue investigation, root cause analysis, and validation testing to ensure system stability and performance.
- Collaborated with technical and operational teams to resolve reported issues and support timely project delivery.
- Produced detailed technical documentation and test reports for stakeholders and project teams.

TRAINING AND CERTIFICATIONS

Google Cyber Security Certificate: Includes Linux, MySQL, and Python hands-on labs.

TECHNICAL SKILLS

- Programming: Python, Java, SQL
- Security: IDS, Network Security, Vulnerability Assessment, Wireshark, Nmap, Suricata, Snort, Zeek
- Testing: UAT Testing, Defect Tracking, JIRA
- Tools: Git, Microsoft Office
